Gore Springs Surprise In Tennis Tournament

Defeats Spencer Gordon, the Chevy Chase Titleholder, in Feature Match, 8-6, 3-6, and 8-6.

DOUBLES UNDER WAY

By NAT T. WORLEY.

The defeat of Spencer Gordon, winner of the Chevy Chase tennis singles in last year's tournament, by A. J. Gore featured the open tennis tourney at the Chevy Chase Club when play was resumed yesterday.

The set was the most exciting and the hardest fought of the afternoon. Gore captured the first match, 8 to 6, while the next one went to Gordon, 3 to 6. The score of the final match was the same as that of the first, 8 to 6, but the play was swift and both men went at top speed.

In the men's doubles, the hardest fought set of the day was that between Lewis and Fuller and Leach and Leach, which was won by the first two, 10-8, 6-8, 6-3.

Shannon and Heaton, after defeating Shannon and Miller in the first round, went out and won another set from Simmons and Taylor in the second round, and these two will probably meet the Doyle in the finals. They won both of their sets in two straight matches by the same scores, 6-2, 6-1.

Miss H. Fitch defeated Miss Doyle in the women's singles, 12-10, 6-1.

The pairings for the mixed doubles will be given out tomorrow, the time for entering this event expiring last night.

A large gallery watched the play yesterday, the excellent weather being a big factor.

Yesterday's results and the pairings for tomorrow follow:

MULLANEY A WHITE HOPE.

FREDDY WELSH DOES NOT FEAR M. SAYLOR

World's Light-weight Champion Confident of Beating Indianapolis Boy on May 28.

Indianapolis, Ind., May 15.—Freddie Welsh, light-weight champion of the world, who is to box Milburn Saylor, of Indianapolis, ten rounds on the night prior to the big speedway races at the Federal Park, will come to Indianapolis on May 18, where he will complete his training for the Saylor bout. The champion boxer is in a letter to Eddie Mack, promoter of the contest, that he is not in the least alarmed at Saylor's announced intention to knock him out if possible.

"I am willing to admit that Saylor is a very fast and dangerous opponent," said Welsh, "but I haven't the slightest fear that he will be able to turn the trick which he has in mind. I have been boxing for ten years, and I met boys of his kind, and while, of course, there is always a chance that a fellow may put one over, yet it is a more difficult thing to do than some people might imagine.

"I am in excellent physical condition, and I do not think I have lost any of my speed. Therefore, I do not think Saylor has one chance in a hundred to send me to dreamland; at least, I am willing to bet him \$1,000 on the side that he cannot put me out in ten rounds. However, it should not be understood that I will take any chances with Saylor. It is perfectly clear to me that he has the punch and that, should he ever land one of his wild swings, it might be disastrous to me, but I consider myself a better boxer than Saylor. That is what gives me confidence."

Bannockburn has arranged an interesting golf and tennis program for May 23-24. The golf schedule is short, but will be completed during the holiday period, and all Bannockburn players are expected to participate in these events. The following program will be carried out:

Saturday, May 23-2 p. m., qualification round, 9 holes, medal play.

Sunday, May 24-9 a. m., first round, 9 holes, match play; 1 p. m., second round, 9 holes, match play; 4 p. m., third (final) round, 9 holes, match play.

Consolation-2 p. m., May 23, and 4 p. m., May 24.

Contestants to qualify in classes of eight.

Prizes for low qualification score, for winner, runner-up and consolation in each eight.

Sam Purvis, professional at Bannockburn, has arranged to remove his residence to Cabin John, Md., on May 28, where he will assume formally the duties of a professional again.

Bannockburn has devised a plan for watering most of the new greens at Cabin John, and the golfers are greatly pleased with the prospects of having velvety putting greens immediately. The plan is simple, and there should be no difficulty in effectively supplying water.

A pumping machine has been placed at the new artesian well to increase the flow. From this well water will be pumped onto greens one, two, three and nine, a splendid pressure being obtained by gravity. A portable gasoline engine will be used to supply water to greens five, six, seven and eight. A splendid stream parallels the course near the latter holes and a very small engine can water a green within an hour or so of time as the water can be safely turned on.

B. B. Hunt headed a voluntary crew of Bannockburn golf enthusiasts who stopped playing at Cabin John Saturday for the purpose of constructing a new bridge over the water on number nine fairway.

The tournament committee at Bannockburn has announced a special tournament schedule to cover the holiday periods of the season. Good programs are arranged for June 30, July 4, and Labor Day.

Bannockburn tournament players are encouraging their better players to accept the hospitality of Chevy Chase, and it is expected that many will play in the District championship rounds. Among those who will probably enter are Richard Deane, Dr. E. De Fares, President John L. Warren, W. F. I. Bartlett, B. B. Hunt, Dr. Bruce L. Taylor, George Cunningham, Dr. Milo H. Sutcliffe, William and Gus Worthington, the Dempsey brothers, E. G. Parker, Samuel Greene, John Speed Morris and Dr. H. J. Nichols. Bannockburn will also be well represented at the Wilmington meet of the Middle Atlantic Association in June.

Bannockburn is installing its heating plant this week, and it is expected that the chilly artesian water now used for showers will be turned into hot water by May 29.

Bannockburn tennis players outgrew the two new courts at Cabin John, and at their request two additional courts were completed during the past two weeks. Dr. T. J. W. Brown, Secretary Daniel C. Hazard, and Samuel Purvis inspected the finished grounds Saturday and laid out the courts for marking and erection of new nets.

Bannockburn players have addressed a card to Secretary E. A. Varela, L. Green and others of the Washington Country Club expressing appreciation of the hospitality during the tournament recently. Bannockburn players had a great time, and soon hope to be in shape to return favors to local golf clubs.

Dr. S. H. Greene defeated E. W. Burton, Jr., 3 up and 2 in an eighteen-hole match of the Harvest Home tournament at Bannockburn last Thursday, thus placing Greene in the semi-finals.

A meeting of the golf committee of the Chevy Chase Club was held Thursday afternoon for the purpose of regulating the handicaps of the golfers.

Another member of the Davis family ranks highly in Buffalo golfing circles, Francis Davis being among the best amateurs in that vicinity. He is a mere youth, but is already an expert with the club and is expected to acquire notoriety similar to that gained by his brother in a very short time. Francis is a member of the Buffalo Country Club.

Harry K. B. Davis, of San Francisco, who surprised the golfing world by beating the hitting and Greenblatt's receiving were the features. Score:

Young Athletics After Games.

The Young Athletics would like to arrange games with all teams averaging 12 years of age. Address: Mr. Goldberg, manager, 1109 Seventh street northwest.

H. Chandler Egan and others, was never heard of in golf circles until late last summer, when his first real stunt was the defeat of Jack Neville. Davis is originally of Colorado Springs, having gone to Portland from his home town and from there to San Francisco last fall, where he gained national prominence by his performances in the tournament held under the auspices of the Panama-Pacific Exposition, April 19-25.

MacDonald Smith, who holds a world's record for seventy-two holes medal play, is at present filling the shoes of his brother, Alex, at the Wykagyl Golf Club. Alex is at present in San Francisco, but will return shortly.

The record made by MacDonald was accomplished last summer on the Seaside links at the metropolitan open championship. For four rounds his average was a fraction over sixty-nine. No golfer on either side of the ocean ever accomplished this feat. Vardon came near to it a few years ago, when he completed seventy-two holes in 288, just two strokes more than it took Smith.

This stood for some time as a record. As all golf courses are not the same, records are hard to compare. There is no doubt that MacDonald and Alex will be two pros looked upon to help the British invasion this summer at Baltusrol. If the former is playing the game he did in the early part of last year he will be a serious factor in the tournament. It was only on account of illness that Smith was prevented from making a better showing at Chicago last fall in the open championship.

Chick Evans, for his weight and height, gets more power into the swing than any golfer in America, amateur or pro. In addition to his drives he plays his full iron shots a prodigious distance, largely through perfect timing and the dip of that right shoulder which gets in back of a shot and thereby puts that much additional force into the punch.

One-day golf tournaments have been stumbling blocks for clubs these many years. It is fairly easy to devise tours extending from two to six days. But the one-day events are the sticklers.

The Western Advertising Golfers' Association has apparently solved the problem. Its new form of tourney is to be tried out this year, and the officials believe it will be a winner. The first will be staged sometime next month. It was tested last season at Westward Ho and worked satisfactorily.
